Fax: +91-22-28500414

Wesmec is an ISO 9001:2008 company that was established in the year 1986.

Wesmec offers clients a complete range of instrumentation hardware, ranging from instrument fittings, valves, manifolds, air headers, flanges and condensate

pots. We also offer clients with prefabricated instrument hookups which are a

convenient way of eliminating impulse piping by using sandwich constructed

valves. Wesmec has developed high-pressure needle valves, a range of gas

valves for turbine applications and block and bleed valves

Wesmec is certified with BS 4368 Part IV, ASTM F 1387, MSS SP 99, PED 2014/68/EU

and CE marking for instrument tube fittings and valves.
