Manufacturing and Repair of Hydro-Dynamic Bearings and assemblies.. FEE specializes in manufacturing and repairing of all types of Hydrostatic and Hydrodynamic bearing assemblies for every industry that works with rotating equipment. We are specialized in manufacturing and repairing of white-metal lined precision journal bearings, guide pads, and thrust pads. Having a core team with over 18 years of hands-on technical engineering expertise, talented technicians and an independent quality team, FEE is also able to deliver on short lead times without compromising on product accuracy, quality or client satisfaction.
