Expinox Alloys is located in Mumbai, India. We house the latest technology used in the production of fasteners. All equipment used by our company are up to date with the latest industry standards. We manufacture fasteners in conformance to several Indian & International standards such as the DIN, ISO, BS, ANSI and ASTM. Apart from this we also manufacture non-standard or custom made fasteners based on technical drawings received from our customers. Our wide range of Fasteners including washers, nuts, bolts, screws, threaded rods etc. in different material grades such as stainless steel, alloy steel, carbon steel, high nickel, titanium, duplex, super duplex, inconel, monel, hastelloy etc.
