"Swambe Chemicals" is truly specialized in "Silica Gel and its allied products". The company was founded in 1973 by Mr. R.D.Vachanni, with an aim & dedication to serve the demanding needs of the market especially in the field of air drying, gas drying as a true adsorbent, later in 1993 Mr. Rajesh Galgalikar joined as technical head with a true experience as a "chromatographer" in the field of column chromatographic purifications & techniques, thus the company contributed new products for column chromatographic adsorbents.
