Global Chemical Company L.L.C. (GCC) Was Established as a Chemical Manufacturing Facility in Abu Dhabi in September 2009. Our Chemical Manufacturing Plant Produces Premium Quality Sodium Asphalt Sulphonate, Also Known as Sulphonated Asphalt, Which Is Widely Used as a Shale Stabilizer and Fluid Loss Reducer in Oil and Gas Well Drilling Operations. A Range of Other In-house Formulated Specialty Chemicals Used in Drilling and Completion Fluids, Such as Lubricants, Defoamers, Corrosion Inhibitors, Etc. GCC Continually Strives to Develop New Products for the Drilling Fluids, Completion Fluids and Well Stimulation Markets to Satisfy Client Requirements.
