

Egyptian Mud Engineering and Chemicals Company

39 Farid Street
Heliopolis, Cairo 11314

Egypt

Phone: +20-2-26907080

Fax: +20-2-22916298

EMEC formulates Water-based, Oil-based and Synthetic-based Drilling and Drill-in Fluid Systems, Designed to meet the specific Wellbore Challenges of our Clients.

Our drilling and drill-in systems are based on: Spud Mud, KCL Polymer Fluids, KCL

Polymer Glycol Fluids, Saturated Salt Fluids, Sodium Silicate Fluids, Mixed Metal

Hydroxide Fluids, Perm Drill Drill-In Fluids, Ultra Low Invasion Fluids, Formate Fluids, Mineral Oil-Based Fluids, Synthetic Oil-Based Fluids, Ester-Based Fluids.
